

H720: Vertical bike LK7200

- Electromagnetic and self-generating braking system. **No electrical connection required except for the monitor).**
- **High rigidity** elliptical structure.
- **40 programs** for different trainings, including Fitness Test and Heart rate Control in order to improve the quality of the exercise. 12 profiles with 4 intensity levels for each one.
- **Monitored heart rate:** measured either by contact with the handlebar or via telemetry (Integrated POLAR compatible receiver).
- Obstacles between seat and handlebar have been eliminated, **creating a completely accessible machine.**
- **Poly-V belt drive system** to ensure silent exercise and minimal maintenance.
- Pedals with **adjustable and wrap strap** to secure foot.
- **20 levels of resistance.**
- Adjustable **gel seat** and stabilizers.
- **Wheels** for an easy transport.
- EC Declaration of Conformity.
- Compliance with EU Directive 89/336/EEC Electromagnetic Compatibility and European Standard UNE -EN 957 on fixed and mobile equipment.
- Triathlon type handlebar, allowing multiposition grip, both lateral and central.
- Adjustable intensity of resistance and speed.
- **Start and Stop buttons are accessible.**
- **Highly developed biomechanics** for a precise and controlled exercise.
- **Electromagnetic resistance: 500 w.**
- Dimensions: 130 x 62 x 142 cm.
- Weight: 59 Kgs.
- Power: 800 Watts. Consumption: 200 watts
- Maximum user weight: 180kg
- Maximum height of user: 2m

H720: Vertical bike LK7200

LED Monitor: DOT MATRIX screen with top LED window that graphically displays the progress of the exercise. The bottom alphanumeric display gives the user instructions before and during the exercise. The 4 LED windows at the very bottom simultaneously show information for Speed, Time/Distance, Calories/Tilt and Pulse rate.
